

## **SANDPIPER ENERGY UPDATE OF CONVERSION EFFORTS IN OCEAN PINES**

Dover, Delaware — Sandpiper Energy (“Sandpiper”), a subsidiary of Chesapeake Utilities (“Chesapeake”), has steadily been continuing conversion efforts in Ocean Pines. As of the end of May 2017, approximately 1,960 residents and business within Ocean Pines have been converted to natural gas.

Sandpiper has updated its map depicting its conversion areas; this updated map is available on the Sandpiper Update section of the Ocean Pines Association’s (“OPA”) webpage. As the conversion schedule continues, postcards will be sent to residents and businesses who are next on the schedule. The postcards will highlight the week when Sandpiper’s technicians will be in their area to answer questions, perform appliance evaluations, and ultimately set a temporary tank. The postcard also includes the phone number (855.290.9628) that can be called should there be any questions or if the customer is unavailable that week to meet with the technicians.

As conversions continue, it is important to remember the responsibilities of the customer during this process are communication and availability. The OPA website is the best place to see which area Sandpiper plans to work in next, then watch for the postcard. For a smooth conversion, it is important for you to allow our Conversion Coordinators to complete their assessment of your home or business as soon as possible. It is also important for customers to communicate any concerns or issues to Sandpiper’s conversion team. Sandpiper cares about our customers’ needs and the community we serve. The Conversion Coordinators will work with you to schedule both the assessment and conversion of your appliances.
